

CORONAVIRUS (COVID-19)

Oct 26

NEW RULES
AND DIRECTIVES IN FORCE

Maximum alert in certain regions of Québec

The measures in force in red zones are being maintained until **November 23, 2020**

- The restaurants, bars, auditoriums, gyms and other commercial enterprises and establishments already covered must remain closed.
- However, some easing of the measures could be announced in two weeks in regions where the situation continues to improve.
- Secondary III students in schools in red zones are now covered by the alternating formula that at one and the same time offers classroom instruction and distance teaching.

Classroom instruction will from now on occur every other day as is now the case for Secondary IV and Secondary V classes.

The COVID Alert app is a good way to help limit the virus' spread.

You are encouraged to download it now.
